

Online tutorials for all curriculums!

Check out all of EDGT's great line of tutorials. With a current list of tutorials now up to 36, you will find one that fits perfectly into your nursing curriculum.

EDGT's full line of online tutorials:

BASIC HEAD TO TOE PATIENT ASSESSMENT

Helps students and practicing nurses acquire basic physical assessment skills.

BASIC PRINCIPLES OF PHARMACOLOGY

Helps students of the healthcare professions learn basic concepts and principles related to pharmacology.

BE DRUG WISE: PSYCHOTHERAPEUTIC MEDS

Provides users with valuable information about the drugs currently being used to promote mental/emotional wellness.

CHART MASTER: EFFECTIVE PATIENT DOCUMENTATION

Helps nurses and other members of the healthcare professions develop excellent documentation skills.

CONCEPT MAPPING

An innovative, critical thinking approach to planning patient care. It is also referred to as cognitive mapping or mind mapping.

CONFLICT RESOLUTION

Helps practicing nurses and nursing students improve their abilities to deal with and reduce conflict.

DETECTING AND PREVENTING ELDER ABUSE

Helps healthcare professionals recognize elder abuse and intervene effectively to prevent such occurrences.

EFFECTIVE PAIN MANAGEMENT

Helps nurses enhance their ability to intervene effectively when patients are in pain.

ENHANCE YOUR CRITICAL THINKING SKILLS

Helps individuals perfect their critical thinking skills & apply these in the delivery of safer, more effective patient care.

ETHICAL AND LEGAL ISSUES IN NURSING

Introduces practicing nurses and nursing students to basic ethical and legal issues in nursing.

FUNDAMENTALS: THE NURSING PROCESS

Helps nurses learn to use the nursing process as a problem solving approach to planning and implementing quality patient care.

FUNDAMENTALS: THERAPEUTIC COMMUNICATION SKILLS

Helps healthcare professionals improve their communications with patients, families, and each other

HOME HEALTH NURSING

Assists students and practicing nurses in learning the differences between acute care nursing and nursing in the home setting.

MANAGEMENT SKILLS: EFFECTIVE DELEGATION

Focuses on the essential elements for the safe delegation of nursing care.

MATH MAGIC FOR MEDS

Teaches the basic concepts of dosage calculations using a dimensional analysis approach.

MEDICATION MAESTRO: GIVING ORAL MEDICATIONS

Focuses on the knowledge and skills needed for the safe administration of medications by the oral route.

MEDICATION MAESTRO: SAFE ADMINISTRATION OF MEDICATIONS

Teaches or reviews critical skills related to the safe administration of medications.

PEDIATRICS GROWTH AND DEVELOPMENT

Helps nurses recognize normal growth and development characteristics of the neonate through the adolescent.

PHYSIOLOGY: PROMOTING ACID-BASE BALANCE

Focuses on how nurses can recognize and intervene when patients exhibit signs and symptoms of acid-base imbalance.

PHYSIOLOGY: PROMOTING FLUID & ELECTROLYTE BALANCE

Teaches nurses how to promote fluid & electrolyte balance. Helps patients achieve an optimum state of wellness.

PHYSIOLOGY AND ASSESSMENT SERIES:

- **The Cardiac System**
- **The Endocrine System**
- **The Respiratory System**
- **The Gastrointestinal System**
- **The Genitourinary System**

These tutorials focus on the anatomy, physiology, nursing assessment, & patient intervention as related to major body systems.

PROMOTING SAFETY: REDUCING MEDICAL ERRORS

Helps healthcare professionals recognize issues that contribute to the occurrence of medical errors and teaches processes to minimize them.

PROMOTING WELLNESS SERIES:

- **Bipolar Disorder**
- **Depression**
- **Generalized Anxiety Disorder**
- **Schizophrenia**
- **Obsessive-Compulsive Disorder**

A series to help healthcare professionals understand common mental/emotional disorders and their common treatment interventions.

STRATEGIES FOR PROBLEM SOLVING

Helps nursing students think critically, problem solve, and make clinical decisions with greater skill and confidence.

TEST MASTER

Teaches students to identify their preferred learning style, develop more effective study habits, & enhance their test-taking skills.

TRANSITION INTO NURSING PRACTICE

This tutorial helps newly graduated nursing students make the transition from student to registered nurse.

TIME MANAGEMENT

Created to help nurses, nursing students, and other healthcare professionals implement strategies to better manage their time at work, at home, and at school.
